

## What's Changed

### Improvements

- **Milestone Rewards Now with Digital Gift Cards via Tango**

Our milestone reward functionality has been expanded to include automated digital gift cards via our partner Tango. This provides a standardized and scalable way for you to offer rewards and incentivize members for achievements like completing preventative care exams.

- **Booking Vera Whole Health Appointments Just Got Easier**

Starting September 17th, it's easier than ever to connect with care. Members with access to Behavioral Health, Diabetes, and Nutrition Education services from Vera Whole Health can now schedule appointments directly within the app, simplifying how they book the support they need.
