📆 Product Release Notes – May 25, 2025

Release Version: 20250525

Release Date: May 25, 2025

✨ What's New

-
-

⚙️ Improvements

- **Supporting member registration via SMS:** Member support and Care Guides can send unregistered members a link to register via SMS, in addition to email, allowing members who cannot access their email or do not have an email with us yet to easily register. *Only applicable for direct registration brands that allow outbound SMS: Castlight, Engage, My Vera.*
- **Verify Email Address Through Account Settings:** Members who have not yet verified their email address will be able to verify through account settings, by sending themselves a new verification email. *Only applicable for direct registration brands.*
- **Easier access to program information:** Design enhancement to the program details page to always display the program description first, providing members easy access to pertinent information about their programs.

🐞 Fixes
